

AIR FORCE SUMMER FACULTY FELLOWSHIP PROGRAM

The Air Force Office of Scientific Research Summer Faculty Fellowship Program (SFFP) promotes communication between research faculty and Air Force research scientists and engineers. The SFFP provides an opportunity for hands-on exposure to Air Force research challenges through eight to twelve week research residencies at participating facilities for full-time science and engineering faculty at U.S. colleges and universities.

The SFFP offers a competitive stipend and daily expense allowance. Relocation allowances are available. U.S. citizens and permanent residents are eligible to apply.

Potential fellows are strongly encouraged to contact an advisor at one of the Air Force Research Laboratory (AFRL) Directorates, the U.S. Air Force Academy, or the Air Force Institute of Technology to discuss their proposed research topic prior to applying to the program. A list of advisors can be found on the program website.

The application is open now!
Applications accepted through November 1, 2005
